Chapter 1 by Valencia Hepburn

I seemed alone at the time. No person to come around and rescue me from this dreadful place. I had my hair cut and my arm branded that said 'human'. This was my life now.

My mother was kidnapped and my father was murdered by them. They took away my sisters and brothers to work on the force but they took me with them. They said I had potential in my eyes but my heart was filled with fear.

They fed all 13 million of us Quaker Oats and soda. We worked out daily from 144:00-150:00. I told you they were weird. They are coming now and we all must escape somehow

Chapter 2 by miss mystery

They grabbed us and took us back to our cage for they come in and look at us. I was in a zoo of some sort. We all switch out every few hours so they have some variety. Our potential is just the staying submissive my brother and sister we're both fighting their way out while I froze crying while they beat them. When they were unconscious I was told about my potential. I miss them.
